CONSUMER PROGRAMS

As 1985 was the year of the **commercial liability crisis**, so 1986 was the year of the solution. The first six months of the year were devoted to drafting and refining legislative proposals to deal with the liability crisis, while the second half of the year focused on implementing the laws that ultimately passed.

During the Spring of 1986, the Illinois General Assembly actively considered changes in the tort system, more stringent cancellation provisions, and expanded data collection responsibilities for the Department of Insurance. To assist the legislature in its study and in response to House Resolution 831, Department staff members compiled an extensive report on the insurance crisis.

Included in the report were historical property and casualty trends and financial results; an analysis of the commercial insurance market in Illinois, the midwest and countrywide; and a review of the reinsurance market.

The legislative review led to the drafting of Senate Bill 1200 which was ultimately passed and signed into law. The bill contains a number of changes relating to tort law and policy cancellation guidelines. An article-by-article summary begins on page 15.

One of the provisions of the new law which most directly affects the Department of Insurance is Article 25, **Insurance Cost Containment**. This article requires detailed statistical reporting by insurance companies for certain commercial liability lines on an annual basis. The Department must analyze these statistics and prepare a report to the Illinois General Assembly by April 15 of each year. The Department will also be responsible for studying the insurance system in Illinois and responding to legislative and governmental requests for special studies and analysis of data collected via Article 25. A Consumer Market Division priority in 1987 will be the formation of a new Statistical Research and Development Section to comply with these requirements.

Although the commercial liability crisis had far-reaching effects, the **Illinois Automobile Assigned Risk Plan** alleviated the availability crisis for some commercial vehicles. The greatest influx of risks utilizing this facility came from long-haul truckers who are subject to the Federal Motor Carrier Act. The Federal Act requires liability limits ranging from $350,000 to $5,000,000. In 1984, the Assigned Risk Plan wrote approximately $600,000 in commercial premiums. In 1985, this figure increased to approximately $12,000,000; and in 1986, it escalated to $40,000,000. In addition to the liability crisis of 1985-86, the insolvency of some major insurers specializing in truck insurance caused the surge in the number of risks insured through the Assigned Risk Plan.

The **Illinois FAIR Plan** has been in existence since 1968, but has been limited to offering fire insurance to designated "urban areas" only. At the Department's urging, the FAIR Plan expanded the definition of "urban area" to include all areas of the state. As a result, commercial fire insurance and residential fire insurance (including homeowners) became available to all Illinois residents in 1986.

Consumer Market Division Task Forces

In conjunction with the Secretary of State's office, the Property/Casualty Section participated in a task force to study the federal government's requirement for a **federal driver's license** for commercial truck drivers. The task force examined the impact on the insurance industry and the type of legislation needed to place Illinois in compliance with the federal requirements.

The Life/Accident & Health Section began its work with the **Long Term Care Insurance** Task Force to develop future availability of coverages. The group is generating data on present access and future needs, alternative methods of funding, tax considerations (for both the insurer and the insured) and public education.

Policy Forms Reviews

The P/C Product Evaluation Unit received 22,280 forms filings and 4,025 rate filings during the year. The Unit continued to review exclusionary language under personal liability coverages for communicable disease and sexual abuse and disapproved filings for any exclusions that appeared to be contrary to the best interests of Illinois policyholders.

The L/A & H Unit received some 30,000 form filings in 1986. Of these, 10,635 life and 14,184 accident and health filings were approved for use. Additionally, some 1,300 health insurance rates were placed on file and several hundred were withdrawn. There were 854 policy forms withdrawn because of failure to comply with Illinois law.

Both Units continued work on the **policy forms data base** which should be operational in 1987.

Consumer Complaints

The P/C Consumer Services Unit investigated 7,738 complaints; the L/A & H Unit, 5,743. The primary reasons for complaints were: claims handling (both units); underwriting (p/c); and policyholder service (l/a & h). Cancellation and nonrenewal complaints accounted for about 28% (2,183) of the total p/c investigations.

At the request of local legislators, the P/C Unit also conducted on-site investigations at several insurance companies to review denial of liability claims in connection with construction of the Deep Tunnel sewer project in Chicago.

Chicago-area consumers were served by the Consumer Information Section which helps walk-in complainants and provides translation assistance to both Spanish and Polish-speaking individuals.

Additionally, the **Community and Industry Affairs Division** was involved in a variety of community insurance programs such as seminars, television and radio programs, and committees addressing urban problems.

Producer Licensing and Regulation

The conversion from agent/broker licensing to a single producer license has been administratively successful. License requests are now processed the same day they are received—a significant service improvement. During 1986, the Licensing Unit issued 14,397 new licenses and 54,490 renewal licenses. There were 16,376 license examinations administered.

The number of producer education providers and approved courses continued to grow in 1986. Work has commenced to computerize the education data. Currently there are over 400 certified providers of pre-licensing and continuing education courses.

Licensing of **third party administrators** began in 1986. TPAs are persons who collect premiums or charges or adjust life or accident and health claims on behalf of insurers or plan sponsors. The Department has licensed 149 TPAs and 41 preferred provider organizations.

The Producer Regulatory Unit examines producers to measure compliance with insurance laws. Examinations are initiated from complaints or from information developed from insurers, law enforcement agencies or market conduct examinations.

During 1986, the Unit concluded 80 financial examinations and 446 investigations which resulted in 67 revocations, 7 surrenders, and 114 stipulation and consent orders. Civil forfeitures for the year totalled $66,325.

Market Conduct Examinations

The Life/Accident & Health and Property/Casualty Market Conduct Examination Units conducted 51 routine and 7 target examinations in 1986.

The target exams were in response to the "insurance crisis" and resulted in $27,500 in civil forfeitures for various violations of the producer termination, cancellation and nonrenewal statutes.

Several special examinations were also conducted, including a multi-state exam of producers and companies to gather statistics for the Department's report to the General Assembly on the insurance crisis, as well as a special mortgage consolidation exam.

FINANCIAL/REGULATORY PROGRAMS

Life/Accident & Health

After several years of litigation and disputes with the Illinois Life and Accident and Health Guaranty Association, a preliminary settlement was reached for the Association to pay an additional $1 million to the remaining Illinois policyholders of a Baldwin-United Corporation affiliate, National Investors Life Insurance Company (NILIC). The additional amount agreed to in the settlement represents $1 million over and above any amounts the Association is to pay as part of the 1984 Global Enhancement Agreement negotiated by insurance regulators in Arkansas and Indiana, policyholder representatives and various private insurance companies. Both the Director of Insurance and the Attorney General worked for the adoption of the Agreement.

If approved by the Cook County Circuit Court, the settlement means 2,186 Illinois policyholders will share in the one million dollar payment. The money will be distributed to Metropolitan Life Insurance Company on behalf of policyholders who elect to exchange their NILIC policy for one issued by Metropolitan as provided by the Agreement.

> **"We are aware of no other state, with or without a Guaranty Association Law, that has been able to obtain this level of protection. . . ."**

"We are aware of no other state, with or without a Guaranty Association Law, which has been able to obtain this level of protection for its citizens who bought NILIC policies," said Director John E. Washburn. The settlement marks a milestone in concluding the protracted resolution of the Baldwin-United insolvency.

The Life/A&H Division has continued its move from the mainframe computer to personal computers. This transition has resulted in more timely and less costly reports and analysis by staff members. Nearly all staff members are trained personal computer users. Projects started in the past have been extended or refined during 1986.

For instance, while inflation is still at low levels, medical care inflation is higher than the general inflation rate. Even higher rates are anticipated in the future due to the leveling off of savings from cost containment programs. Hence, accurate measurement of company surplus which is dependent on the estimation of claim reserves is crucial during periods of change and uncertainty. Staff personnel measure the adequacy of claim reserves by relating claim payments to the claim reserves established at the appropriate accounting date.

Similarly, interest rates have been low for a couple of years, but have recently been moving upward. An insurance company's ability to thrive is dependent on many things including the flexibility to sell assets when necessary to meet cash needs. As interest rates move up, the market value of certain assets decreases. Our analysts monitor the market value of assets and other relevant parameters of insurance companies heavily engaged in selling interest sensitive products. The goal of our monitoring in both of these situations is to identify problems before they become too large to be readily solved.

The use of personal portable computers has allowed the field examination staff to incur less down time due to travel since the work can be performed on site. In addition, the use of more sophisticated application programs for larger companies has permitted more complicated analysis of the company, e.g. comparison of policies in-force between the current and previous examinations.

Greater reliance on sophisticated computer technology becomes even more necessary as the number of life insurance companies licensed in Illinois increases. In 1986, the number of companies licensed in Illinois to do life or health insurance business increased by 20. The chart below shows the type and number of companies licensed as of December 31, 1986. The financial examination staff completed 47 financial examinations of domestic companies in 1986. Included in this number were full-scale financial examinations of ongoing companies, limited or special purpose examinations, and pre-operational examinations. An additional 14 targeted exams were also completed.

Health maintenance organizations (HMOs) continued to grow in enrollment from 987,000 enrollees in 1985 to 1,462,000 in 1986. Generally, HMOs in the Chicago area reported a precipitous drop in net earnings compared to 1985. The Division is concerned that the increased level of competition will force out the weaker organizations, and will maintain close surveillance of these HMOs.

Property/Casualty

During 1986 many property and casualty insurers experienced continued loss reserve development. Pine Top and Optimum Insurance Companies were placed in liquidation as a direct result of inadequate loss reserves.

Furthermore, 37 of the property and casualty companies licensed to transact business in Illinois required formal regulatory action ranging from voluntary agreements to actual suspension or revocation of their certificates of authority.

Many insurance companies have suffered serious, sometimes irreversable, losses because of the action of a managing general agent. Although MGAs provide needed services for their companies, a few, once they have full underwriting powers, have caused serious harm because of uncontrolled and irresponsible premium writings.

The responsibility of the Property and Casualty Operations and Marketing Section was therefore expanded to include the on-site examination of such agents. Legislation effective September 20, 1985, requires an insurer to notify the Department when any agent produces in excess of 5% of the company's business.

PCOM also investigated 10 unlicensed entities which provided insurance or insurance related products. The insurance availability crisis has, unfortunately, created a favorable environment for "fly by night" insurance operations. Because of the Department's efforts, restraints were imposed to protect Illinois consumers from obtaining worthless insurance contracts.

The insurance availability problem also caused a dramatic increase in surplus lines activity. During 1986, 429 licensed surplus line producers submitted 52,544 documents to the Surplus Line Association of Illinois reflective of $316,576,132 in premiums. The Association was in existence only six months during 1985 and for that six months they processed 17,978 documents which represented $78,766,647 in premium.

In response to restricted market conditions, the federal government passed the Commercial Liability Insurance Risk Retention Act permitting the creation of risk retention groups—captive insurance companies owned by their members insureds—and purchasing groups authorized to purchase commercial liability insurance on behalf of their members. Although this Act was only passed in November 1986, the Department anticipates considerable activity in these areas.

There were 143 insurance companies operating at year end under "An Act Relating to Local Mutual District, County and Township Insurance Companies." These companies provide property insurance to numerous rural citizens and the Act had not been significantly amended since its inception in 1936. During 1986 this Act was repealed and a new Farm Mutual Act was enacted. The new Act permits territorial growth and authorizes farm mutuals to offer new and updated products. It contains incentives for responsible surplus accumulation and grants additional regulatory powers to the Department. The Department conducted education seminars for farm mutual managers explaining the ramifications of the new Act and the responsibilities imposed thereunder.

The Property and Casualty Examination Section completed a total of 37 examinations (31 comprehensive and 6 limited) in 1986. The comparable figure for the previous calendar year was 55. The difference of 18 examinations is attributable to the substantial size and complexity of companies under examination during 1986 and still in process at year end 1986, together with the fact that the field examination teams were under-staffed.

Seven examinations of farm mutual insurance companies were completed utilizing the procedures manual developed in 1985. For the coming year, the Department anticipates that a substantial portion of the 143 farm mutual insurance companies will be examined through the use of personal computers and revised audit procedures encompassing the revised state statutes applicable to these organizations. The main objectives of these examinations are protection of policyholders, compliance with Illinois statutes, and in some instances, recommendations to the companies regarding accounting records, systems and internal control.

The initial examination of the Illinois Insurance Exchange was conducted during 1986. The main thrust of this examination was to check compliance with the Illinois Insurance Code and Illinois Department of Insurance Administrative Code together with the Illinois Insurance Exchange's Rules and Procedures.

Summary of 1986 Insurance Legislation

S.B. 1200 (P.A. 84-1431)—Signed 9/26/86. "An Act in relation to the numerous changes in the Illinois Insurance Code, the Code of Civil Procedure, and the Local Governmental and Governmental Employees Tort Immunity Act and various other Acts. The 141 page Act is divided into 27 articles. Articles 1-9 and 11-27 took effect on 11/25/86; Article 10 takes effect 1/24/87.

The following is a summary by Article:

Article 1—Local Governmental and Governmental Employees Tort Immunity Act

Grants or expands immunities provided for local governmental units, and expands local governmental authority to enter into intergovernmental contracts. Specific amendments include:

- Extending the immunity from punitive damages for public officials and employees while prohibiting local governments from indemnifying employees for punitive damages;
- Broadening the immunity of local governments to include liability for warning signs, overhead lights, etc. Exempts local governments from liability for failing to upgrade streets and traffic controls (no exemption for failing to maintain);
- Exempting local governments from liability for damages resulting from hazardous recreational activities where the plaintiff knew (or should have known) of the hazard. Liability still exists for willful and wanton conduct or failure to warn of a dangerous condition;
- Providing immunity for injuries occurring in a body of water adjacent to land owned/maintained by a public entity;

Office of the Special Deputy

The Special Deputy, on behalf of the Director of Insurance, directs the day-to-day affairs of insurance companies in receivership. The Director is the statutory conservator, rehabilitator, liquidator or ancillary receiver of companies subject to the provisions of Articles XIII or XIII½ of the Illinois Insurance Code.

Depending on the type of court order sought against a company, one of the following alternative courses of action will be taken:

1) Under an Order of Conservation, the Director will take possession of the property, business and affairs of a company to protect the interests of its creditors, policyholders and others and to determine the nature and extent of the financial condition of the company.

2) Under an Order of Rehabilitation, the Director is vested with title to all property, contracts and rights of action of the company. He proceeds to conduct the business of the company and to take appropriate steps towards removal of the causes and conditions which made rehabilitation necessary.

3) Under an Order of Liquidation, the Director is also vested with title to all property, contracts and rights of action of the company. Upon entry of the court order, he proceeds immediately to liquidate the property, business and affairs of the company, to marshal all assets, and to determine the total amount of all claims against the company in order to make a pro rata distribution of its assets as soon as possible to all policyholders, claimants, and creditors who have approved claims filed against the company.

Following is a brief report of each company as of December 31, 1986. Following these reports is a combined statement of cash receipts and disbursements for the companies.

American Association of Trauma Specialists

Medical Benefit Plan Trust (AATS)

This unlicensed, unauthorized company provided medical insurance coverage to its members which included paramedics and other emergency personnel nationwide. AATS was placed into liquidation on March 20, 1980, for reasons of insolvency. Of the 157 proofs of claim mailed to its members who had unpaid health claims, 61 proofs were filed with the liquidator in the total amount of $297,644. Forty-five claims were approved by the supervising court for participation in the sum of $94,533, in all distributions of the assets of the company.

In October 1986, the Director and the Attorney General of Illinois settled the company's lawsuit against certain of its officers and directors. On October 27, 1986, the liquidator's supervising court entered an order approving a distribution of $40,000 to the company's approved claimants which resulted in a distribution percentage of approximately 40% to each approved claimant upon their claim. Also, on that date, the liquidator's supervising court entered an order dismissing the liquidation proceedings of the company and discharged the Director from his duties as liquidator.

Fidelity General Insurance Company

An Order of Rehabilitation was entered against the company on August 21, 1970, and a Final Order of Liquidation entered on December 4, 1970. The estate was closed August 5, 1982. Approximately 11,300 claims were filed against the assets of the estate; and 8,084 were approved for payment by the court.

Two disbursements of assets were made for a total payment to creditors in the amount of $6,452,282.34.

On August 20, 1986, the Director sought, and received from, his supervising court an order reopening the liquidation estate of the company in order to protect additional monies received, and to be received, for an additional distribution to its creditors.

Georgetown Life Insurance Company

A life, accident and health company, Georgetown was placed into rehabilitation on April 8, 1983. Upon the Director's determination that the company could not be rehabilitated, the company was placed into liquidation in August 1983 for reasons of insolvency.

At the time of liquidation there were approximately 22,000 life insurance policyholders, 3,000 annuity holders, and 2,000 group accident and health policyholders. After extensive negotiations, substantially all of the liabilities relating to the life and annuity policyholders were assumed by United Founders Life Insurance Company of Oklahoma City, Oklahoma. The agreement, effective year end 1983, was subject to a final accounting and several other conditions which were concluded in 1985.

Upon the entry of the Order of Liquidation, the provisions and protections of the Illinois Life and Health Insurance Guaranty Association were implemented. The Guaranty Association is paying covered claims and continuing coverage as appropriate on those policies not assumed by United Founders.

A total of 36,429 proof of claim forms were mailed to the creditors of the company, 1,066 of which were filed with the liquidator.

In December 1986, following the liquidator's determination that substantially all of the company's assets had been marshalled and settlement of his lawsuit against the former officers and directors of the company, the liquidator applied for, and received from his supervising court, approval to distribute $24,047,342 to the company's creditors which resulted in each policyholder claimant receiving 97.96% of his claim against the assets of the company. A second distribution of the company's assets is scheduled to occur during 1987 at which time the liquidation estate should be closed.

Home Owners Insurance Company

This company was placed in liquidation on April 8, 1971. A final distribution of assets was made on May 17, 1982, in the amount of $3,119,876. The estate was closed May 27, 1982.

February 26, 1987, was set as the final date for filing proof of claims against the company with all contingent claims being required to be liquidated by February 26, 1988.

Iowa State Travelers Mutual Assurance Company

Iowa State, a life, accident and health company, was domiciled in Des Moines, Iowa. The Iowa Insurance Commissioner initiated receivership proceedings against the company for reasons of insolvency. Acting in an ancillary capacity, the Illinois Director of Insurance, pursuant to an Order of Conservation entered in Illinois on February 24, 1983, seized the company's records and assets located in Illinois.

Upon the entry of the Iowa receivership proceedings, the provisions and protections of the Illinois Life and Health Insurance Guaranty Association were activated. Since the entry of the Order of Conservation, premium payments and claims for Illinois residents have been processed by the Association.

This estate remains open during the pendency of the litigation filed by the Iowa receiver and the Director as ancillary receiver against certain of the officers and directors of the company.

Kenilworth Insurance Company

Kenilworth was placed in liquidation on April 20, 1982. The Special Deputy Liquidator has conducted a thorough investigation into the nature and extent of the insolvency with the purpose of identifying and recovering assets of the company. Many of the assets listed on Kenilworth's financial statement at the time of liquidation have proven to be uncollectible.

The Special Deputy is continuing efforts to marshal assets and is proceeding with litigation against a number of parties involved in the insolvency.

A total of 62,636 proof of claim forms were mailed to insureds and other claimants and 36,724 proofs were filed in the proceedings prior to the deadline.

It is anticipated that the liquidator will resolve all the pending litigation in the estate during 1987 allowing him to make a distribution of the company's assets to the first priority claimants of the company and to close the liquidation proceedings of the company.

LaSalle National Insurance Company

The company was placed in liquidation on December 28, 1971. individual claims to the court with a total amount claimed of $12,322,874.72. As of December 1982, Insurance Guaranty Funds have paid covered claims in the amount of $6,873,185.

The first distribution was 50% of the amount of approved claims, and the second and final distribution was for 28% of the amount of approved claims. A total dividend has been paid to claimants in the amount of 78% of their individual claims.

The Director will reopen this estate during 1987 in anticipation of receiving additional assets which shall be distributed to the claimants of the company.

Main Insurance Company

On January 19, 1977, the company was placed into rehabilitation, and the Director of Insurance was appointed as rehabilitator to determine the company's true financial condition.

Upon completion of an examination of Main's records, it was determined that the company was insolvent. The rehabilitator then filed a petition in the Court in November 1980, requesting an Order of Liquidation with a finding of insolvency. Management of the company opposed the Order of Liquidation, and on October 20, 1981, a trial court entered an order denying the petition for liquidation. On June 22, 1982, a trial court vacated the original ruling and found Main to be insolvent, but imposed a stay against the enforcement of the order pending resolution of an appeal. At that time the court issued an order fixing the time and procedure for filing claims as of February 1, 1982. Some 6,611 proof of claim forms were mailed to policyholders, and 2,807 were filed. Liquidation of contingent claims was required by February 1, 1983.

The Illinois Supreme Court denied the appeal and remanded the case to the trial court which entered an Order of Liquidation on August 25, 1983. The Appellate Court affirmed the order on March 22, 1984. On October 2, 1984, the Illinois Supreme Court denied management's petition to leave to appeal and issued its mandate to the Appellate Court which, on November 14, 1984, affirmed the trial court's judgment, thus making the Order of Liquidation final.

In December 1986, following the fixing of the number of first priority claimants of the company and the amount of their claims against the assets of the company, the liquidator sought and received from his supervising court an order approving his distribution of ($1,400,000.00) to the approved first priority creditors of the company resulting in a distribution of 100% upon each approved first priority claim. The liquidator is seeking damages in excess of $100,000,000 which may be trebled under the RICO Act. In a precedent-setting ruling, the Court of Appeals for the Seventh Circuit denied the defendant's petitions seeking to strike the cause of action against them. The Director believes this lawsuit should come to trial during 1988.
